

Good News!

We just finished our first block of online classes for young people of all ages in the fields of acting and writing. We are excited to announce that we will start a new block of classes this summer! These unique and interactive online classes are a great way to keep growing your skills and talents without ever leaving your home!

The 40-minute acting classes for younger students will focus especially on the following: vocal acting as well as fun and helpful acting games that you or your child can play at home. The class size will be limited to 10 per class, however we can add extra time slots as needed.

The adult acting classes will focus on growth of imagination, creating strong interpretation, how to successfully audition, and emotional availability! The adult writing class will help you take the next steps in completing that script you've always wanted to write, as well as giving you valuable insight and feedback on your current writing projects!

Here are **MORE DETAILS ABOUT THE CLASSES** being offered.

We hope this is a blessing to you and your family and we hope to see you soon!
